FIXING IT RIGHT THE FIRST TIME

Welcome to our program...

How does it all work?

Congratulations on investing your time into researching one of the most successful online automotive training companies. Automotive Training Solutions is a full-service automotive training and research company that has been in business for over 8 years. We provide technical training and research assistance to automotive repair facilities in the minority and non-minority areas of the Chicagoland area.

A modern-day automobile offers many challenges for automotive repair facilities, the automotive repair technician is under great pressure to produce accurate repair in a reasonable time period.

We provide services that can assist in providing the research needed in order to promote “fix it right the first time”. Our form of “just in time” training helps to turn the common stress line into a timeline for a higher customer service index. We are always striving to give something back to the automotive service community, our main goal is to assist automotive repair shops in training their technicians on new product as these automobiles enter into a global economy.

FIXING IT RIGHT THE FIRST TIME

What we do?

Automotive Repairs and Diagnostics have become extremely complex today, it takes highly skilled instructors to deliver “live” and “online” instruction effectively today.

Automotive Training Solutions provides a means for the shop to receive “just in time” training as well as diagnostic assistance. We offer a highly effective product for Automotive Repair Shops who have all been listed as essential services in the state of Illinois. We provide expertise

in the following areas of repair:

1 Auto Maintenance Services

We design a customized maintenance plan for each customer, the manufacturer’s maintenance plan is strictly followed along with recommended enhancements designed into it. This helps maintain the value of the customers product.

SHARE A REASON TO GO ALL-SEASON WITH ASSURANCE WEATHERREADY

WONROE SHOCKS & STRUTS

FEEL THE DIFFERENCE. GUARANTEE
100000 / 100000 - 10 DAY
 100000 / 100000 - 10 DAY

STEP 1 START THE CONVERSATION
 Have you noticed a need to slow down to gain control over bumps in the road, such as railroad tracks?
Have you experienced repeated replacement of front brake suspension components, or tires?

STEP 2 PERFORM A TEST DRIVE
EXCESSIVE OR UNUSUAL NOISE EXCESSIVE SHOCKING OR FACETING POOR HANDLING OR FEELING LACK OF STABILITY OR POOR BRAKING UNUSUAL SCATTERING OR SLOTTING POORLY RESPONSIVE STEERING

STEP 3 PERFORM A VISUAL INSPECTION
ARE THERE ANY CRACKS OR BUBBLES IN THE RUBBER? IS THERE EXCESSIVE WEAR ON THE TIRE SURFACE? IS THERE EXCESSIVE WEAR ON THE TIRE SURFACE? IS THERE EXCESSIVE WEAR ON THE TIRE SURFACE?

WHY REPLACE SHOCKS AND STRUTS CAN BECAUSE NEW SHOCKS AND STRUTS CAN STOP

2 Brake Repair Pads & Rotors

Our trained technicians will provide an exceptional repair using quality brake parts. All vehicles are test driven after repairs are completed to ensure the vehicle brake system is operating as designed.

ATSolutions

3 Shocks, Struts Replacement

Our students learn the latest in advanced suspension and ride technology. The advanced electrical concepts make today's suspension systems much more than just a mechanical and or hydraulic system.
